

**PRESS RELEASE – 31 March 2015**

## **TechAnax Awarded NASA SEWP V SDVOSB Contract**

**TechAnax to Provide the Products and Solutions under NASA's 10-Year \$20B with IT Services, Solutions, Hardware and Software under a 5-Year Prime Contract**

TechAnax, a Service Disabled Veteran Owned Small Business (SDVOSB) which provides technology products, solutions and services to the government, announced today it was awarded a National Aeronautics and Space Administration (NASA) Solutions for Enterprise-Wide Procurement (SEWP) V prime contract. The indefinite-delivery/indefinite-quantity (IDIQ) contract was awarded as part of the SDVOSB Group B awards. Through this new contract, TechAnax will offer a full line of enterprise technology products, solutions and services from hundreds of IT vendors to its government customers and will support its network of channel partners that do not hold their own SEWP V contracts.

“SEWP V has a long history of providing its government customers with an ever expanding suite of products and solutions, TechAnax is proud to be selected as one of the suppliers for the next contract,” said Byron Athan, CEO and President of TechAnax. “I want to thank the team and our teaming partners for their excellent work and dedication to make the award to TechAnax possible.”

SEWP V contracts are commercial firm-fixed-price, indefinite delivery indefinite quantity (IDIQ) delivery order contracts with an ordering ceiling of \$20 billion. There is an effective ordering period of 10 years, with a 5-year base period and one 5-year option, beginning on 1 May 2015. As one of the government-wide acquisition contracts (GWACs), task orders can be accepted from all NASA centers and, all federal agencies plus their contractors. According to NASA, the principal purpose of the SEWP V contracts is “to provide state-of-the-art computer technologies, high-end scientific and engineering processing capabilities, network equipment and peripherals.”

“We are honored to be awarded a prime SDVOSB SEWP V contract,” said Bill Lytle, TechAnax Executive VP and SEWP Program Manager. “TechAnax is excited to be in a prime position to help further the SEWP program by providing the Federal sector with innovative, broad technology services and solutions. Through the SEWP V contract, TechAnax will enable the next-generation of technology solutions that help NASA, Federal agencies and government contractors advance national and global missions that benefit the United States.”
